Single mothers get foundation's help to shop for CNY

OSK Foundation helped 10 single mothers and their children as part of its Gifts of Hope programme. The families were treated to a fun shopping outing for Chinese New Year essentials at Atria Shopping Gallery, Petaling Jaya. "We are glad to be able to ease the burden of these single mothers.

"It was great to see them choosing new clothes and essential items for the festive season with their children," said Foo Wen Sze, a representative from the foundation.

The single mothers were identified through the assistance of Pertubuhan Perkhidmatan Sosial dan Pembangunan Komuniti Daerah Gombak.

Mother-of-five Tan Lee Hoon expressed her gratitude.

"I would like to thank OSK Foundation for helping us with our Chinese New Year preparations.

"My children and I have never had a chance to shop like this before."

The outing ended with a scrumptious lunch and tossing of yee sang for good health and fortune in the new year.

The foundation was established in May 2015 as the philanthropic arm of OSK Group to consolidate and further enhance the company's ongoing commitment to the well-being of the community.

The foundation's key areas of focus are education, community development and the environment.

It seeks to create and provide more opportunities via high impact, sustainable projects that can assist and improve the areas of focus through grants, partnerships, volunteerism and programme development.
